THE French Circular.

PARIS, Sept. 17th.—The French Circular of this morning states that the recent changes in Europe are favorable to France, particularly as Venice has been handed over to France that Italy might receive that province through the means of France instead of directly gaining possession of it herself. It is added that this is the second step which France has taken toward the freedom of Italy.

THE MONITOR observes that Prussia and Italy are drawn nearer in ideas and interests. Austria now has no hostile intention. The Convention of Rome will be joyfully carried out. Navies of 2nd class Powers assume the liberty of the Baltic and Mediterranean. The note justifies the offer of the Emperor's mediation between Prussia and Austria, and Italy, and hints at the annexation of people of the same language and interests to any of the Powers in Europe. It shows the necessity of perfect defense and military organization, not, however, as a threat, and expresses a belief in lasting peace in Europe.

PARIS, Sept. 18th.—The belief is general that Napoleon, himself, was the author of the note recently made public, and that his sincere desire is for a permanent peace.

French Officers in Mexico.

PARIS, Monday, Sept. 17, P. M.—It is said that the Emperor Napoleon has refused to allow officers of the French army to hold office in Mexico, owing to the protest of the United States Government.

LIVERPOOL, Friday, Sept. 17, 1866.—P. M. The steamship Great Eastern has been signalled as off Fastnet on her return from her second trip to Hear's Continent, Newfoundland, with the recovered cable of last year. Great enthusiasm is manifested among the shipping interests here on the news which this ship has met with after all the mishaps that have occurred to her since Bruce designed her.
